DO YOUR TOOLS HELP YOU THINK?

With Snap-on diagnostic tools in your hands, there's no question. With all the vehicle coverage, power and information you need to get the job done right—and right the first time. And regular software upgrades that keep you up-to-date so you can service more cars, faster, and make more money. That's smart thinking.

Snap-on

THE THINKING IS IN YOUR HANDS.

MODIS™

- › Scanner, 4-channel scope and graphing meter
- › Domestic, Asian and optional European and Heavy Truck Scanner™ software
- › Real world answers with Troubleshooter
- › Step-by-step component testing instructions
- › Large display and rechargeable battery

SOLUS PRO™

- › Domestic, Asian and optional European Scanner software
- › Real world answers with Troubleshooter
- › Long-lasting rechargeable battery
- › Large, bright color display
- › PC connectivity via ShopStream Connect™
- › Valuable 2,000 frame datastream recording

ETHOS™

- › The affordable, upgradeable handheld
- › Vehicle coverage back to 1980
- › More access to more systems
- › Pull and Clear Codes, Graph Data
- › Software in English/Spanish

Vantage PRO™

- › True 2-channel lab and ignition scope
- › Over 2 million component test procedures
- › Component locations and pinouts
- › Configures meter, shows expected results
- › Large color display, rechargeable battery

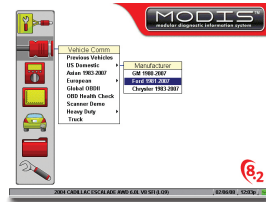

CONNECT TO MORE CARS, READ AND CLEAR MORE CODES, VIEW MORE DATA, PERFORM MORE TESTS AND HAVE MORE EXPERT INFORMATION TO GET THE VEHICLE FIXED FASTER THAN EVER

DIAGNOSTICS.SNAPON.COM

Software Bundle 8.2: Top Reasons to Invest

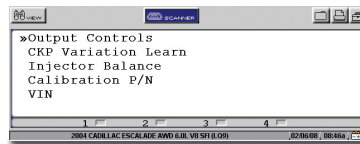

> The Latest In-Depth Capabilities

Software Bundle 8.2 delivers more new Scanner coverage than ever for MODIS™, SOLUS™, SOLUS PRO™, ETHOS™ and the MT-Series Scanner™. Snap-on has added 820 new vehicles, access to 7,000 additional systems, and thousands of new codes, data and tests for 1998 – 2007 models. Stay current with today's fast-paced changes in automotive technology with Bundle 8.2.

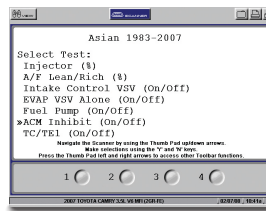

> 2007 Domestic Scanner Coverage

Along with additional 2007 GM coverage, Bundle 8.2 features new 2007 Ford and Chrysler model year coverage. Many new vehicles have been added, including 2003 – 2006 Dodge Sprinters. Vehicles have more warning lights than ever. With the latest software, you get codes and data for 12 new 2007 Ford modules along with new bi-directional tests for GM models back to 1998.

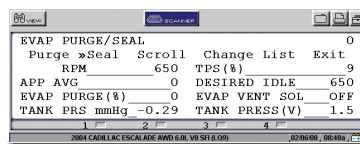

> 2007 Asian Scanner Coverage

Significant new Asian capabilities include comprehensive 2007 Toyota, Lexus, Scion, Nissan, Infiniti, Subaru, and Isuzu models and new proprietary coverage back to 1999. CAN coverage is now available for Nissan and Mitsubishi as well as occupant classification systems for Toyota, Lexus, and Scion, and ISO ABS, electronic automatic temperature control and electronic power steering for Mazda.

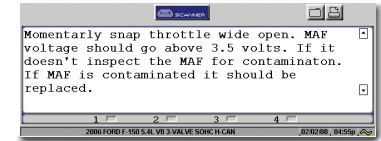

> Over 600 New Bi-Directional Tests

MODIS, SOLUS PRO, SOLUS and MT-Series users gain 615 functional, actuator and system tests. Powerful new tests that will help increase your EVAP repair profits include the purge and seal test on many 1998 and newer GM models and EVAP monitor tests for Dodge Stratus and Chrysler Sebring, Hyundai, and Mitsubishi models. Chrysler enhancements include a throttle control adaptive relearn for non-CAN 5.7L HEMI-equipped vehicles.

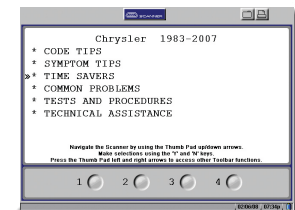

> 2006 Domestic & Asian Troubleshooter*

Troubleshooter is packed with experienced-based information that sets Snap-on diagnostic tools apart. Bundle 8.2 includes over 72,000 new Troubleshooter tips for MODIS, SOLUS and SOLUS PRO users. There are tests and tips for many 2006 vehicles, but most of the new expert information is focused on the 1999 - 2003 vehicles you see most often. Why leave the vehicle, when the best-selling information system is right in your hands.

> Fast-Track® Troubleshooter Even Faster*

For 2006 vehicles, you'll find a new Troubleshooter menu designed for speed and ease of use, giving you even more confidence that you can get the job done right the first time and in record time. "Time Savers" and "Common Problems" are two new categories of experienced-based information that you'll find extremely useful as you tackle tough problems. And for the first time, Snap-on has added Fast-Track Troubleshooter coverage for body and airbag systems.

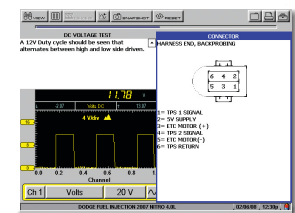

> MODIS, SOLUS PRO, and SOLUS Enhancements

Bundle 8.2 enhances data graphing with adjustable vertical scaling and PID sorting with factory default, A-Z, and Z-A options. Other powerful glitch finding features include 'zoom out' - to see up to 2,000 frames of data, and to erase captured data and restart your graphing.

> MODIS 2007 Component Tests

MODIS users will find almost 9,000 new or enhanced tests along with many new field-based tech notes for earlier models. Tests include preset meter configurations, pin assignments, best test locations, and known-good and common failure waveforms for comparison. Use these lab scope, digital and power graphing meter tests to confirm the part is the problem before calling the parts house.

* Fast-Track Troubleshooter coverage is limited for the MT-Series Scanner. With 8.2, information is not available for Asian Drivability through 1989, Asian Transmission through 2001, Asian and Domestic ABS through 2001 and Body and Airbag systems. Bundle 8.2 is the last Troubleshooter upgrade for the TS1. For complete Troubleshooter coverage upgrade to MODIS or SOLUS PRO.

* Fast-Track Troubleshooter coverage is limited for the MT-Series Scanner. With 8.2, information is not available for Asian Driveability through 1989, Asian Transmission through 2001, Asian and Domestic ABS through 2001 and Body and Airbag systems. Bundle 8.2 is the last Troubleshooter upgrade for the TSI. For complete Troubleshooter coverage upgrade to MODIS or SOLUS PRO.
